

The screenshot shows a filter interface for sessions. At the top, the word "Sessions" is displayed in large white text over a background image of a city at night. Below this is a filter bar with several input fields and dropdown menus. Red arrows point from text annotations to specific parts of the interface.

Use this text filter to search via name of the session or an author of a paper

Use the session code to filter the results

Select from the drop down to view the sessions in a particular room

Select how many sessions you would like to view

Search via type of presentation

Search via the start time of the sessions on a particular day or across the entire conference

Search via the paper code

Select from Practice, Science or Science & Practice

Use drop down to select the day of the Conference

Use this button to submit your filter choices

The filter bar includes the following elements from left to right: a search input field, a "Start time" dropdown menu, a "Session code" input field, a "Paper code" input field, a "Room" dropdown menu (currently set to "All"), a "Type of submission" dropdown menu (currently set to "All"), a "Presentation" dropdown menu (currently set to "All"), a "By date" dropdown menu (currently set to "All"), a "Per page" dropdown menu (currently set to "6"), a "Reset" button, and an "Apply Filter" button.

Science & Practice

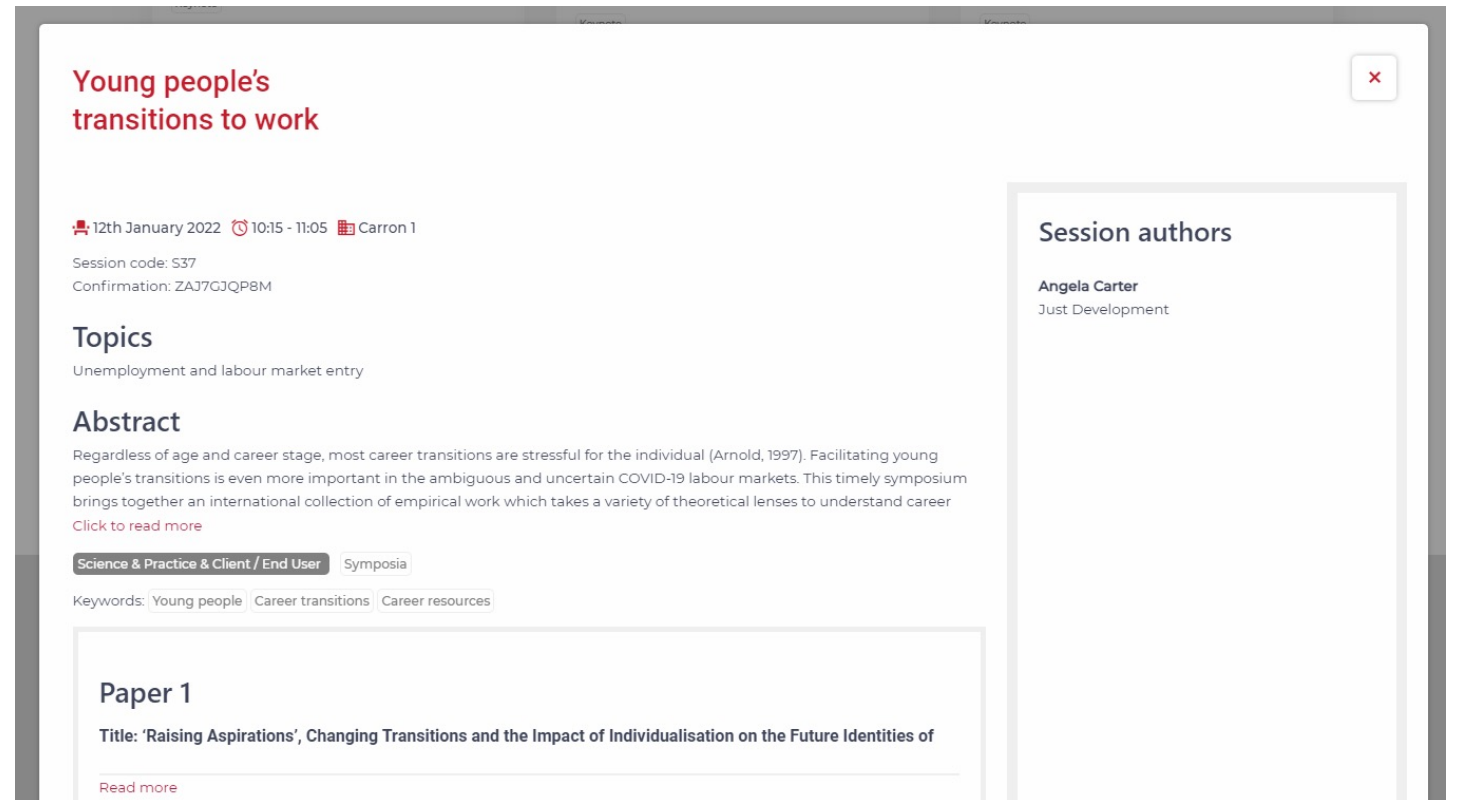

Symposia

+ Load more sessions

This is the information which is shown when viewing the sessions on the programme page. Along with the session code, time date and name of session (all of which can be used to filter the programme page), there is a short description on the topics and the type of submission it is.

When you select a session that you would like to attend, there is further information listed – including, session authors, topics covered and an Abstract.

It also shows which papers are part of the session, location, time and session code. Noting the session code down will mean you can easily search for it on the programme page in the future as each session has its own unique code.

Young people's transitions to work

📅 12th January 2022 ⌚ 10:15 - 11:05 📍 Carron 1

Session code: S37
Confirmation: ZAJ7GJQP8M

Topics
Unemployment and labour market entry

Abstract
Regardless of age and career stage, most career transitions are stressful for the individual (Arnold, 1997). Facilitating young people's transitions is even more important in the ambiguous and uncertain COVID-19 labour markets. This timely symposium brings together an international collection of empirical work which takes a variety of theoretical lenses to understand career
